

Engineering Slurry Pump Parts / Pump Suction Cover Replaceable Alloy A05

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: horizontal-slurrypump.com
- Certification: ISO
- Model Number: OEM
- Minimum Order Quantity: 1 set
- Price: based on quantity
- Packaging Details: wooden case
- Delivery Time: 15days
- Supply Ability: 500sets monthly

Product Specification

- Description: 27%chrome Alloy A05
- Type: Suction Cover
- Original: China
- Pump Type: FGD Engineering Pump
- Highlight: **slurry pump spare parts**

Product Description

350 DT - A 65 FGD Engineering Pump Suction cover, Replaceable Spare Parts

The suction cover is used on the 350 DT - A 65FGD engineering pump and is a replaceable spare part. The suction cover with anti-corrosion and bending resistance. Material is metal.

The flue gas temperature after wet desulfurization is between 40 °C and 80 °C. The flue gas temperature in the chimney is between 130 °C and 150 °C when the desulfurization system is overhauled or not operated and the unit is operating. Since the temperature difference of the smoke varies greatly, the suction cap has the ability to resist temperature change, and does not crack and is durable in an environment with frequent temperature changes.
